Online Reputation Management & Branded Search Strategy

Dr. Sidney Solomon Moritz, DDS

Prepared by Md. Abdul Alim | Dental SEO Consultant | Local SEO Specialist

October 2026 | Confidential

YOUR BRANDED SEARCH ECOSYSTEM

TIER 1

Owned authority

Your website, biography and credentials

TIER 2

Controlled profiles

LinkedIn, YouTube and healthcare directories

TIER 3

Earned authority

Independent professional mentions

TIER 4

Discovery assets

Video, images and expert Q&A

Give People Better Information When They Search Your Name

Where you are

- Prominent third-party news, regulatory, court and blog content appears for your names.
- I see few pages that tell your professional story in your own words.
- Your former and current names split the signals.

What I recommend

- One official professional website and consistent profiles.
- Expert content and video that show your training and approach.
- Credible third-party mentions, earned over time.
- A clear response for each problematic result.

What to expect

- A baseline audit first; I do not assume rankings.
- Progress reported through branded-search measures.
- Legal and regulatory topics handled with your counsel.
- No guaranteed removal or rankings.

My principle: owned authority + controlled profiles + earned authority + consistent identity + expert content and video = a stronger branded search ecosystem.

Your Documented Training Gives Me Strong Material To Build On

Authority signals from your CV

- 20+ years of clinical training and dental practice
- 2-year CODA-accredited AEGD residency, University of Washington / Northwest Dental Residency
- Chief Resident 2013 to 2014; AEGD Chief Resident Award
- Implant dentistry fellowship, University of Miami (2002 to 2003)
- Oral and Maxillofacial Surgery certificate, NYU (2004 to 2005)
- Public-health dentistry in FQHC settings
- Clinical Pedagogy (NYU) and Dental Administration training
- CODA site-visit representative, 2014
- English, Spanish and Hebrew
- Florida-born general dentist

I verify before I publish

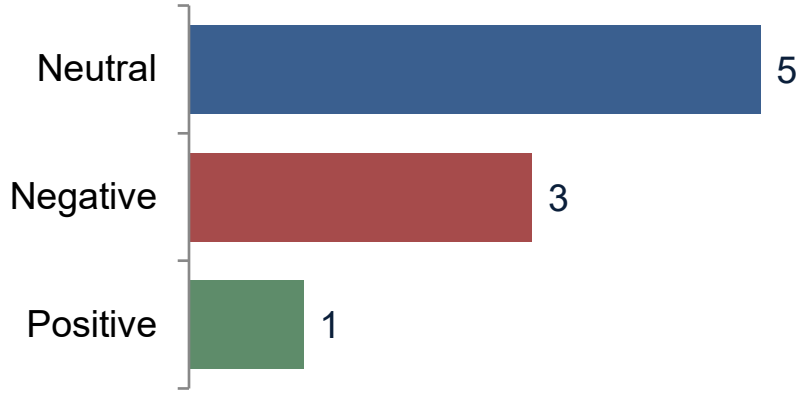

- Your role and ownership dates for Majestic Family Dental: your CV and public records must match before I publish them.
- Any statement about your Florida record, license status or name change: documented, then reviewed by your counsel.
- Your title: I describe you as a general dentist. No specialist title unless documents and Florida rules support it.

Third-Party Sources Currently Tell Much Of Your Story

First page as observed: one personalized search for "sidney solomon moritz dds"

1	Regulatory record: Florida DOH license verification
2	Social profile: Instagram, Sidney Moritz (@miamilifesmiles)
3	News: Miami Herald, February 2026
4	Directory: Vitals profile
5	Industry blog: dentalfraudbusters.com, June 2024
6	Social post: Facebook group discussion
7	Court record: Justia, Montano v. State of Washington DOH
8	Image results: Herald, Facebook and Dental FraudBusters
9	Regulatory record: Florida DOH license verification (PDF)
10	News syndication: PressReader, February 2026

Tone of the 9 organic results (my assessment)

What this tells me

- Third parties, not you, tell most of the story.
- I see no official page of yours explaining your background.
- This is one personalized search from outside the U.S.; a clean U.S. baseline comes first.

Two Names, One Professional Identity, One Strategy

HISTORICAL IDENTITY

- Sandy Montano
- Sandy Fletcher Montano
- Sandy Montano DDS
- Sandy Montano Washington
- Sandy Montano Spokane
- Sandy Montano Deer Park

BRIDGE

Legal name change, February 2024

I connect both names through one documented timeline.

CURRENT IDENTITY

- Sidney Moritz
- Sidney Moritz DDS
- Dr Sidney Moritz
- Sidney Solomon Moritz
- Sidney Moritz Miami
- Sidney Moritz Florida
- Sidney Moritz dentist
- Sidney Moritz Miami Herald

One objective: when people search either name, they find accurate, verified, professional information about you. I use the former name only to clarify identity, build your timeline and correct historical profiles. Ranking positions for these searches are not yet verified; a baseline audit comes first.

I Prioritize By Impact And By What I Can Realistically Change

Result	Type	Tone	Authority	Control	Action	Priority
Miami Herald article (Feb 2026)	News	Negative	High	Third party	Legal review; balance	**Critical**
PressReader republication	Syndication	Negative	Medium	Third party	Legal review; monitor	**High**
dentalfraudbusters.com article	Industry blog	Negative	Medium	Third party	Check accuracy; correct if wrong	**High**
Justia court record	Court record	Neutral	High	Public record	Legal review; monitor	**Medium**
Florida DOH license pages (2)	Regulatory	Neutral	High	Public record	Verify data; monitor	**Medium**
Vitals profile	Directory	Neutral	Medium	To verify	Update and complete	**Medium**
Instagram @miamilifesmiles	Social profile	Neutral	Low	Ownership to verify	Review; align	**Medium**
Facebook group post	Social post	Positive	Low	Third party	Monitor	**Low**

Tone, authority and priority are my initial assessments from the search result. The Month 1 audit confirms them. I never promise removal, suppression or first-page control.

I Build a Stronger Ecosystem Instead Of Reacting To Every Result

Owned authority + **Controlled profiles** + **Earned authority** + **Consistent identity** + **Expert content and video** = **Stronger branded search ecosystem**

I will analyze

- Your current and former-name search results
- Every profile and directory listing
- Which results to correct, update, balance or monitor

I will build

- Your official professional website and biography
- Consistent LinkedIn, YouTube and healthcare profiles
- Expert content, video and credible mentions

I will monitor

- Branded search results every month
- Profile and identity consistency
- How search and AI platforms describe you

I cannot guarantee removal of third-party content or specific rankings. I can build and measure a program designed to improve your professional visibility over time. That said, I assure you that by consistently following this strategy, your professional authority will improve significantly over time.

Four Layers Of Assets, Built In Order Of Control And Value

Layer	Assets	Your control	Reputation value	Difficulty	Priority
Tier 1 Owned	Official website, biography, credentials, career timeline, articles, video library	Full	High	Medium	**First**
Tier 2 Controlled profiles	LinkedIn, YouTube, Vitals, Healthgrades, WebMD, Zocdoc and other relevant directories (eligibility verified first)	High where claimable	Medium to High	Low to Medium	**Second**
Tier 3 Earned authority	Dental and healthcare publications, interviews, podcasts, expert Q&A, alumni features	Low	High	High	**Third (from Month 4)**
Tier 4 Discovery assets	Images, videos, professional posts, presentations, expert Q&A, credible citations	Medium	Medium	Low to Medium	**Alongside tiers 1 to 3**

Value, difficulty and priority are my assessments. I do not assume edit access or eligibility on any third-party platform.

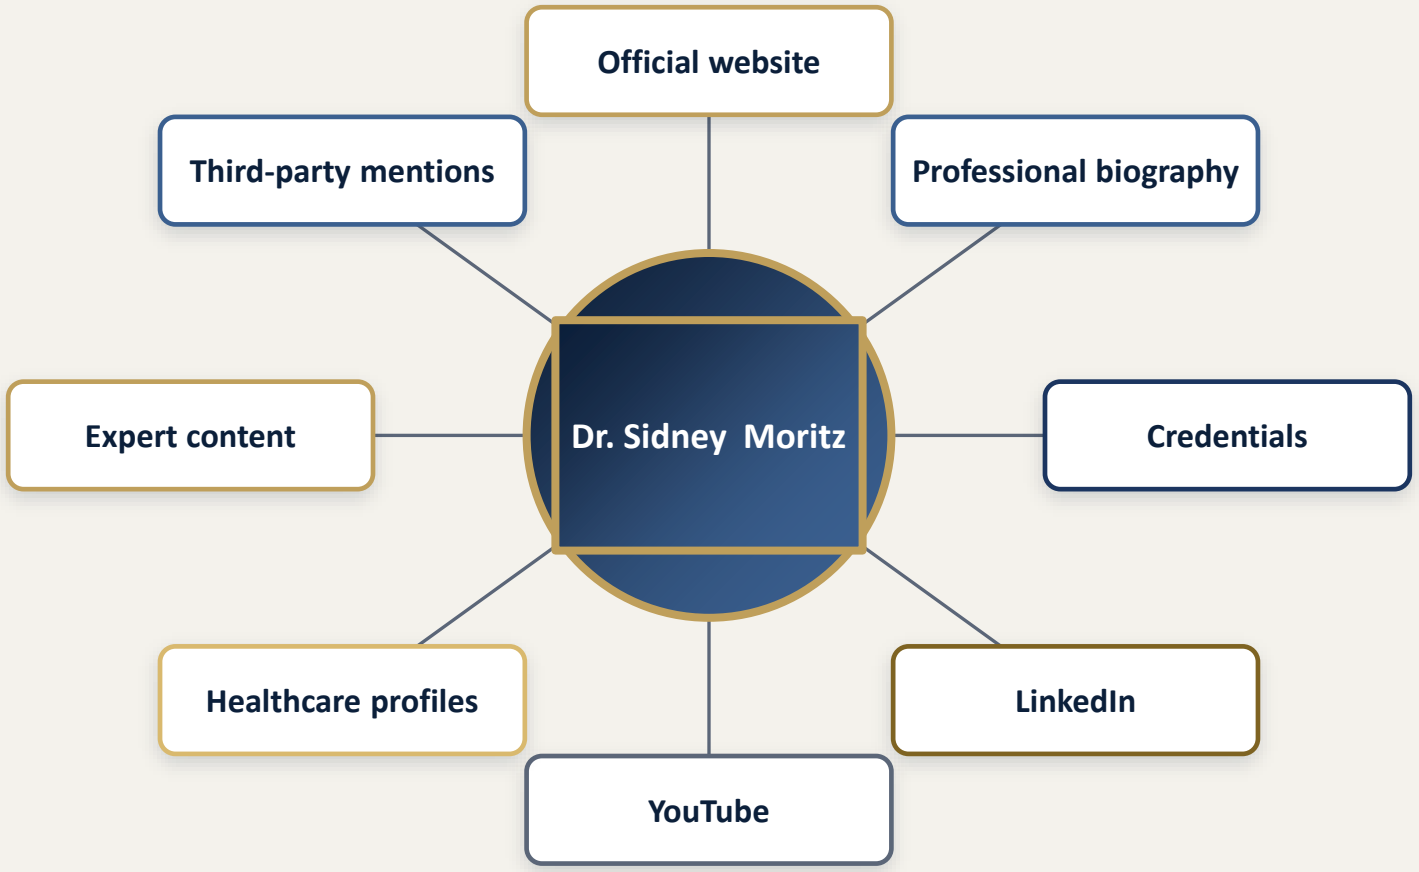

One Official Site Becomes The Source Everyone Can Cite

Home

Who you are	Your credentials	Your expertise	Proof and contact
About Dr. Sidney Solomon Moritz	Education & Advanced Training	Professional / Clinical Insights	Media / Professional Mentions
Professional Biography	Professional Experience	Articles & Education	Contact / Professional Information
Career Timeline	Leadership & Service	Videos / Interviews	

A standalone professional site: no service pages and no promotional funnels. Its job is to be the clear, official source for search engines, AI systems and anyone checking your background.

Make Sure Search Systems Recognize One Consistent You

In plain terms

Search engines and AI systems can tell that every page and profile describes the same person, and that the facts agree.

Identical everywhere

Name, title, biography, location, education, career history, photo and profile links.

Structured data where it fits

Person, Dentist, ProfilePage, Article and VideoObject. Organization only if a real, relevant organization exists.

I Fix And Align What Exists Before Creating Anything New

What I check on every profile

- Incorrect name
- Old name still showing
- Outdated location
- Incomplete education
- Incorrect license information
- Missing biography
- Inconsistent photos
- Wrong website links
- Duplicate listings

#	Platform	Role
1	**LinkedIn**	Core professional profile
2	**YouTube**	Video and branded search
3	**Professional Facebook**	Supporting presence
4	**Professional Instagram**	Only if sustainable
+	**Vitals, Healthgrades, WebMD, Zocdoc**	Eligibility and edit access verified first

No fake profiles and no fabricated reviews. For your existing Instagram profile, I will confirm who controls it and recommend whether to align, update or archive it.

Content And Video That Show Who You Are As a Professional

Professional identity

- Meet Dr. Sidney Solomon Moritz
- Your professional journey
- Your care philosophy

Education & training

- Residency and Chief Resident leadership
- Advanced training
- Public-health dentistry

Professional expertise

- General dentistry insights
- Patient education
- Implant education as a topic only

Thought leadership

- Ethical care and patient communication
- Professional development
- Dental education

YouTube as a branded-search asset

- Introduction to Dr. Sidney Moritz
- My Professional Journey
- My Approach to Patient Education
- Dental Questions Answered
- Professional Insights
- Training and Experience

Goals: branded coverage, trust, human credibility and visible expertise. No response videos about controversies unless your counsel approves.

Independent Voices Make Your Professional Story Credible

- **Dental publications**
- **Healthcare publications**
- **Professional interviews**
- **Expert commentary**
- **Podcasts**
- **Local professional media**
- **Educational features**
- **Alumni opportunities**

How I approach it: quality over volume. Outreach starts after your website and profiles are live, so every mention has an official source to point to.

What I will never do

- Fake press
- Low-quality bulk press releases
- Fake awards
- Paid fake reviews
- Fabricated expert mentions

Every mention must be real, earned and accurate.

Every Problematic Result Gets One Of Five Responses

1

Correct

Factual errors, through legitimate correction channels.

2

Update

Outdated profile data: old name, address, incomplete education.

3

Legal review

News, court and regulatory matters, with qualified U.S. counsel.

4

Balance

Where removal is unrealistic, build stronger professional assets.

5

Monitor

Lower-priority and neutral results, plus any new mentions.

What I publish

Green

Education, training, experience, leadership, professional philosophy and educational content, once verified.

Yellow

Name-change explanation, license status, regulatory history and active disputes: verified first, then reviewed by your counsel.

Red

Accusations, criticism of journalists or regulators, conspiracy claims, unverified claims about others and declarations of legal victory: not used without explicit professional and legal approval.

AI Platforms Summarize What Is Clear, Consistent And Verifiable

Google Search | Google AI Overviews | ChatGPT Search | Gemini | Bing / Copilot

What I strengthen

Consistent facts
Same name, title and history everywhere

Structured data
Labels that tell machines what each page is

Crawlable official pages
Your website can be read by search systems

Third-party corroboration
Independent sources that confirm your facts

Verified credentials
Documented, not just claimed

Authoritative content
Expert pages and video in your own words

How I will check

- Ask the same professional questions on each platform every quarter
- Record how accurate the summary about you is
- Track whether your official sources are cited
- Flag inconsistent or outdated sources for correction

My strategy improves the availability, consistency and credibility of the information search engines and AI platforms can evaluate. I cannot control or guarantee AI citations.

Twelve Months: Diagnose, Build, Then Consolidate

MONTHS 1 TO 3

Diagnosis & Foundation

- Live SERP audit and baseline report
- Identity and profile consistency audit
- Official website, biography and credential pages
- LinkedIn optimization and YouTube setup
- Healthcare profile corrections and entity setup
- Monitoring dashboard

Milestone: A baseline report and a live official site

MONTHS 4 TO 6

Authority Expansion

- Expert content and video publishing
- Profile strengthening
- Legitimate professional mentions
- Correction and update outreach, with counsel
- Monthly SERP monitoring

Milestone: A growing, consistent set of owned and earned assets

MONTHS 7 TO 12

Reputation Consolidation

- Digital PR, interviews and expert contributions
- Quality third-party mentions
- Strengthen the assets that work best
- Entity consistency and AI/search monitoring
- Quarterly reputation reviews

Milestone: Quarterly review of results and next priorities

I Measure Reputation Progress, Not Vanity Numbers

Category	What I measure	Source and cadence (proposed)
Branded search	Positive and neutral assets in the Top 10; owned and controlled assets in the Top 10; Top 20 mix; movement of negative results; branded position of your website, LinkedIn and YouTube	Live SERP checks, monthly
Authority	Profile completeness and consistency; credible third-party mentions; earned media; quality referring domains	Audits and link tools, monthly to quarterly
Entity	Consistency of name, biography and credentials; schema validity; entity association	Entity audit, quarterly
Content	Branded impressions, clicks and click-through rate; article and video visibility	Search Console and YouTube analytics, monthly
AI	Accuracy of professional summaries; official-source visibility; source and entity consistency, where measurable	Platform checks, quarterly

I set numerical targets only after the Month 1 baseline, and I report progress to you transparently.

An Estimated Budget Of $250 To $450 Per Month

ESTIMATED BUDGET FOR THIS CAMPAIGN

$250–$450

per month, USD

Month 1 sets the baseline. The exact monthly amount inside this range depends on the work each phase needs, and I confirm it with you before we start.

FROM $250 / MONTH

Core monthly work

- Monthly branded-search monitoring for both names
- Profile and identity consistency checks and updates
- Official website upkeep and structured-data maintenance
- Biography, timeline and credential page updates
- Checks on Google AI Overviews, ChatGPT, Gemini and Copilot answers
- Monthly KPI report with the next steps

UP TO $450 / MONTH

Added growth work

- Expert articles and patient-education content
- YouTube setup and optimization: titles, descriptions, captions
- Quality-over-volume digital PR outreach
- Correction and update requests for outdated or wrong results
- Directory cleanup and duplicate-listing fixes
- Coordination with your counsel on legal or regulatory topics

Quoted separately: hosting and domain, website development, professional video and photography, premium tools and legal review. No guaranteed removal of third-party content or specific rankings.

About Me And My Final Recommendation

Md. Abdul Alim

Dental SEO Consultant

I help dental professionals strengthen their online authority, improve branded search visibility and build more credible digital ecosystems through SEO, reputation management, content and entity optimization.

- Dental SEO Strategy
- Online Reputation Management
- Local SEO
- Technical SEO
- Google Business Profile Optimization
- Healthcare SEO Strategy
- Content & Authority Building
- Entity SEO
- AI Search Optimization

My final recommendation

My recommendation is not to build your reputation around reacting to every negative result. I recommend building a stronger professional information ecosystem around your name, one that accurately reflects your credentials, experience and professional identity across your website, profiles, video, credible third-party sources and search platforms.

I cannot guarantee removal of third-party content or specific rankings. I can build and manage a structured reputation program designed to improve your professional visibility over time and measure that progress transparently.
